CANADIAN AMO SUPPLEMENT

1. General Information

NOTE: This Supplement to the C.A.S.E. 1-A standard is based on the Maintenance Implementation Procedures (MIP) dated August 31, 2006, under the Agreement for the Promotion of Aviation Safety, dated June 12, 2000, between the Governments of the United States of America and Canada. In particular, it includes special requirements stated in section 3.6 of appendix 4 to FAA AC43-10B.

- A. This supplement is applicable when auditing a Canadian Approved Maintenance Organization (AMO) using the C.A.S.E. 1-A standard. Auditors may encounter the following terminology used in an AMO which is equivalent to terminology used throughout the 1-A standard:
- 1) Canadian Aviation Regulations (CARs) are equivalent to 14 CFR (i.e. Part 43 is equivalent to CAR 571, Part 145 is equivalent to CAR 573, etc.).
 - 2) “Quality Control System” (14 CFR) is equivalent to “Quality System”.
 - 3) “CHDO” (14 CFR) is equivalent to “TCCA”.
 - 4) “Quality Control Manual (QCM)/Repair Station Manual (RSM)” (14 CFR) is equivalent to “Maintenance Policy Manual (MPM)”.
 - 5) “SFAR 36” (or ODA) is equivalent to “Design Approval Organization (DAO)”.
 - 6) An A&P license (14 CFR) is equivalent to an Aircraft Maintenance Engineer M-2 (AME M-2) license.
- B. Auditors may encounter the following personnel qualification differences:
- 1) The functions of an Accountable Manager (14 CFR) are performed under the CARs by the Accountable Executive (AE) and the Person Responsible for Maintenance (PRM).
 - 2) Supervisors under the CARs need not to be licensed.
 - 3) Return-to-service personnel are limited to holders of Aircraft Certification Authority (ACA) or Shop Certification Authority (SCA). These privileges are issued by the AMO contingent on training requirements being satisfied.

2. Exclusions and Notes

The following C.A.S.E. 1-A standard requirements are not applicable in AMOs:

PAR. GUIDANCE AND NOTES

- 2.B. A Capability Listing is not required under CARs. TCCA certificates will include a page for each of the AMO’s ratings. In addition, the MPM will specify the limitations/capabilities.
- 2.C. Anti-drug and alcohol misuse prevention programs are not applicable outside

C.A.S.E.

POLICIES AND PROCEDURES

the United States.

- 3.E.2) Rosters are not required under CARs.
- 3.E.4) See note above regarding Capabilities Listing.
- 5.B.1) Accountable Executive and/or PRM are not required to be listed on the roster as per CARs.
- 5.B.2) Supervisory personnel do not require to be listed in the roster as per CARs.
- 5.B.5) The roster has to be available to TCCA at any time, however, there is no time limit for it to be updated upon changes occur
- 5.C. Summary of employment is not required under CARs
- 5.D. Supervisory personnel need not to be licensed under CARs
- 13.A. Duty limitations are not applicable outside the USA

3. Additional Requirements

A. Return-to-Service Personnel

- 1) In addition to obtaining an AME license, ACA holders shall have successfully completed a TCCA approved maintenance training course specific to the aircraft, engine, or system being maintained and/or certified.
- 2) The AMO shall only issue an SCA to individuals with a diploma or certificate from a course in an appropriate field or with documented experience working under supervision of an ACA or SCA holder for 1800 hours in the case of engine or propeller overhauls or 300 hours in other cases.

B. Training Program

- 1) All AMO personnel performing technical functions shall have received human factors training (CAR STD 573.06).
- 2) All personnel authorized to perform, or supervise the performance of, any technical function shall have received MPM training in respect to the regulations, standards, and AMO procedures applicable to that function. Recurrent training shall not exceed three (3) years (CAR STD 573.06).

C. An AMO performing airframe maintenance for commercial air carriers (14 CFR Parts 121 or 135 or CAR 705) shall have a TCCA approved Safety Management System (SMS) in place.

D. An AMO performing maintenance, preventive maintenance, or alterations on aircraft operating under 14 CFR part 121 or 135 must include in its TCCA approved manual a supplement to the MPM that describes the procedures specified in paragraph 3.6.1 of the FAA-TCCA MIP or explain where in the MPM those procedures are described.
